

Quality Policy

It is the Policy of SteriPack to strive for excellence in everything we do and are therefore committed to the following principles:

- **Communicating to the organization the importance of meeting Customer as well as statutory, legal and regulatory requirements**
- **Manufacturing products which are safe & legal for patients, consumers and comfortable to use by the medical community**
- **Being highly effective in providing our Customers with value through innovation, products and services**
- **The involvement of all our staff to promote a vibrant teamwork spirit and creation of quality**
- **Develop a good working relationship with all suppliers of material and to assist them in any way possible to provide a better quality service,**
- **Continuous improvement in order to maintain effectiveness of the Quality Management System,**
- **Deliver value to our corporation and community**

Top Management provides all means necessary for the realization of this Policy and assures that it is communicated, understood followed, available to all Employees of the Company.

Managing Director
